

Laboratory Report

Client: Clariti Diagnostics
20 High Street, Suite-207
HAMILTON, OH 45011
Requesting Physician:
Provider

Patient Name: DOE , JANE
Patient ID: P9952810
Date of Birth: 1/1/2021 (0 years)
Male/Female: Female
Passport: 123456789

Lab Sample ID: 2112130002
Collected: 12/13/2021 09:30 AM
Received: 12/13/2021 09:30 AM
Reported: 12/13/2021 11:36 AM
Specimen: Nasal Swab

Test	Result
COVID19 RT-PCR Test	NEGATIVE

The Clariti Diagnostics Laboratories COVID-19 test detects SARS CoV-2 RNA using RT-PCR technology. This test is used for clinical diagnostic purposes. Positive tests confirm the presence of SARS CoV-2, but do not rule out possible co-infection by other pathogens. Negative tests can result when an undetectable low-level COVID-19 infection exists. The Clariti COVID-19 test was validated in accord with FDA guidance for COVID-19 testing under the Emergency Use Authorization (EUA) program. The FDA has determined that formal clearance is not necessary for COVID-19 testing performed in CLIA-certified high-complexity laboratories under the EUA program.
